

Fleet Operations Review

Quarter 3 2026

Prepared for: Bluefin Grocers

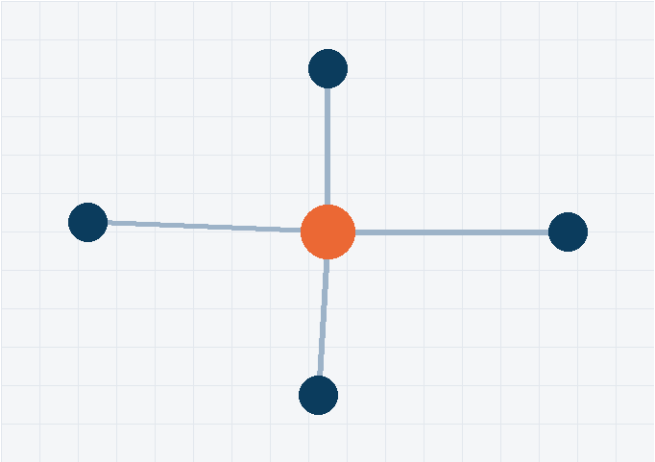

For internal planning use. Figures are unaudited and may be restated in a later report.

Fleet Highlights

Measure	This quarter	Last quarter	Change
Vehicles in service	48	46	+2
Deliveries completed	18,420	17,105	+7.7%
On-time rate	94.2%	91.8%	+2.4 pts
Distance driven (km)	612,300	598,950	+2.2%
Fuel used (litres)	171,450	176,320	-2.8%

Quarter in Brief

Deliveries rose for the third quarter in a row while fuel use fell, helped by the two electric vans added at the South depot in August. On-time performance improved in every region except Central, where road works on the ring road added an average of nine minutes to afternoon routes. Next quarter the focus moves to load planning at the East depot.

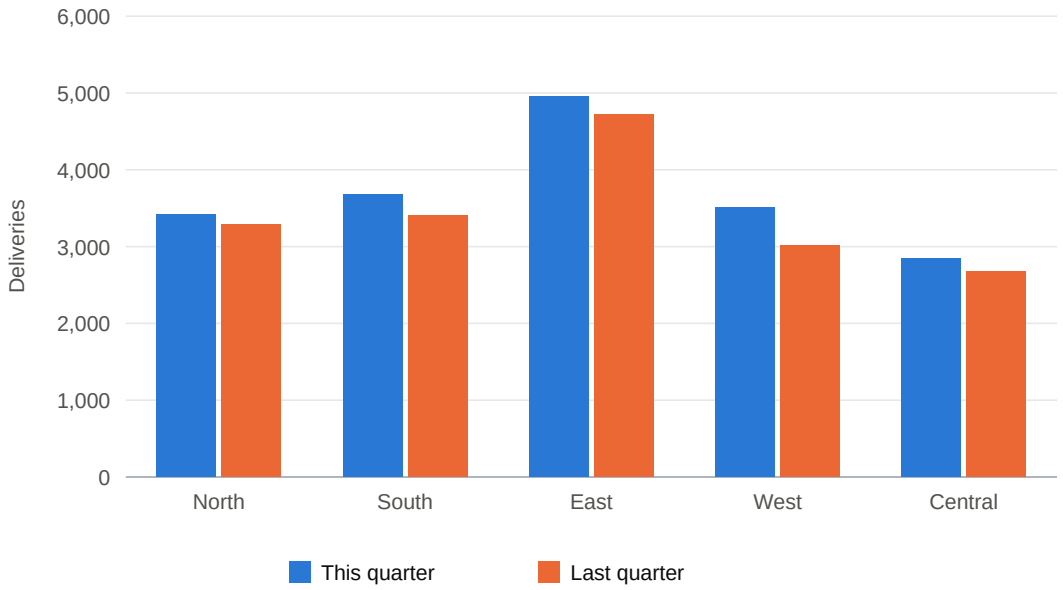

Depot coverage, Q3 2026

All figures are for the quarter ending 30 September 2026.

Delivery Performance by Region

Deliveries by region

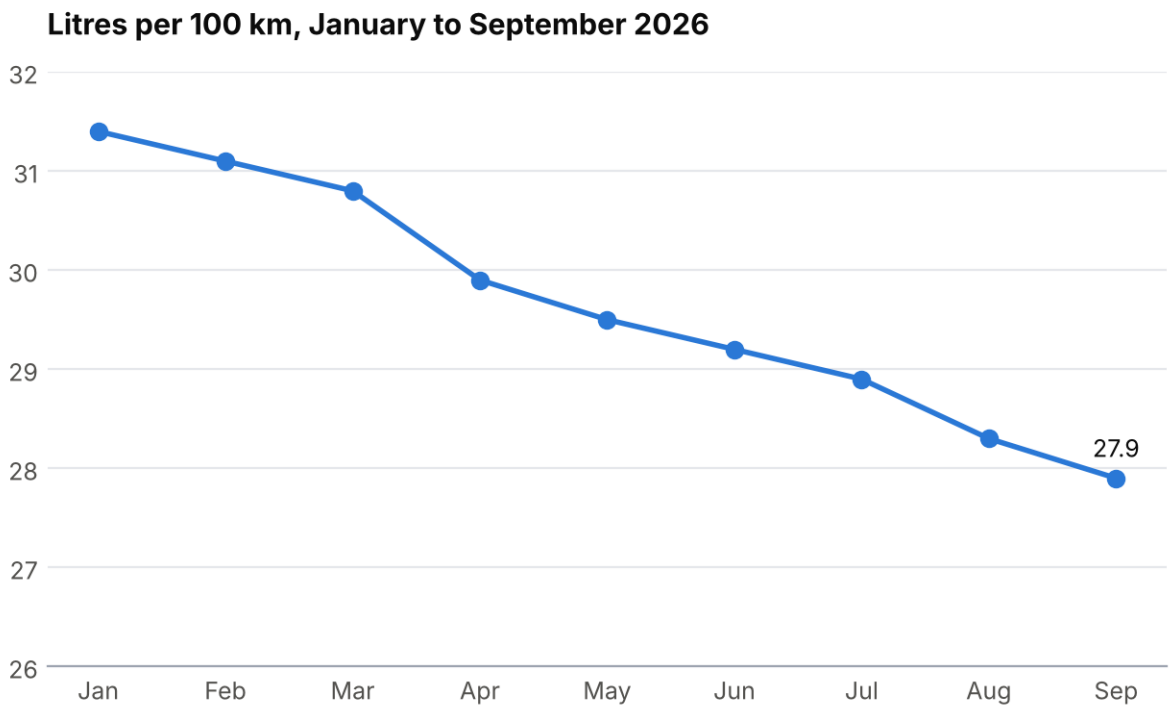

Region	Deliveries	On-time	Avg delay
North	3,420	95.1%	4 min
South	3,680	96.0%	3 min
East	4,960	95.4%	4 min
West	3,510	94.8%	5 min
Central	2,850	88.9%	13 min
All regions	**18,420**	**94.2%**	**5 min**

The East region again completed the most deliveries, and the West region recovered from a slow second quarter. Central is the only region where the on-time rate fell; the delay is concentrated between 2 pm and 5 pm and is expected to ease when the road works finish in November.

On-time means delivered within the booked one-hour window.

Fuel Efficiency Trend

Month	Litres / 100 km
Jan 2026	31.4
Feb 2026	31.1
Mar 2026	30.8
Apr 2026	29.9
May 2026	29.5
Jun 2026	29.2
Jul 2026	28.9
Aug 2026	28.3
Sep 2026	27.9

Fuel use per 100 km fell from 31.4 litres in January to 27.9 litres in September. Most of the improvement came after route re-planning in April and the electric vans in August, which now cover the shortest urban routes.
